

SEIU 1021 AHS Chapter Contract Negotiations News

February 18, 2020

***AHS Members from Across the System
Showed Up at San Leandro to Say
“We Are All in This Fight Together”***

Last week, AHS management gave proposals to our RN and San Leandro Hospital bargaining teams. These proposals matched the ones given to the General Unit: **direct attacks on our contracts, making it easier for bad bosses to discipline and fire us.** In the RN contract, they also tried to **gut the Title 22 protections that enforce safe staffing for patients and RNs.** They also showed a lack of respect by sending representatives who couldn't explain or defend their own proposals. Every AHS worker needs to stand up and:

**Tell the AHS Board of Trustees
*STOP Understaffing, Underfunding,
and Mismanagement at AHS***
