

SEIU 1021 AHS Chapter Contract Negotiations News AHSFight.org February 26, 2020

AHS Members Stormed the Board of Trustees Meeting Last Friday to Show Them What a Public Health System in Crisis Looks Like

Last week, all three AHS Chapter Bargaining Teams (General Unit, RNs, and San Leandro) met with AHS management. Across the board, management's plan is to drag out negotiations for months, and tear up our contract and the standards we've spent decades winning: re-writing our entire contract, gutting our protections, removing all staffing protections, leaving a vulnerable workforce and no solutions to the staffing problems that put us and our patients at risk every day. **The time for us to take action is NOW. Sign our petition and get ready for our rally on March 26.**

AHS' Proposals:

- NO cost of living raises to keep our members up with what it costs to live in the Bay Area
- NO staffing protections, eliminating all Title 22 language
- CUTS to benefits, with less time off and more expensive healthcare
- Control over scheduling, with shift cancellations up to the last minute
- Control over hiring
- Easier ways to fire us
- NO staffing increases for safety and better patient care
- A weaker union, with fewer rights and protections

RALLY AT HIGHLAND TO SAVE OUR CONTRACT

Thursday, March 26

4 p.m. - 6 p.m.

Sign the Petition to Call for a Clean, Safe, Fully Staffed Alameda Health System

Alameda Health System's SEIU 1021 workers make a clean, safe place where patients from all walks of life can get first-class healthcare. But mismanagement, underfunding, and understaffing are creating an unsafe environment for patients and workers.

By signing this petition, I, the undersigned, call for the AHS Board of Trustees to fix the understaffing crisis that is putting our community at risk.
